**DETAILED ACTION**

Note: The current office action replaces the notice of allowance mailed December 20, 2002 and the notice of allowance is hereby withdrawn.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 37 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Tanahashi et al(5514196).

Tanahashi et al teaches a semiconductor device made by processing a silicon wafer in at least one of a clean room and local clean equipment having an air filter. See MPEP 2113 regarding process by product claims. Examiner notes that claim 37 is being treated as an independent product by process claim.

Examiner notes the specification does not provide any evidence showing that the claimed semiconductor device is patentably different from a conventional silicon-based semiconductor wafer produced in an equipment where the air is cleaned by a conventional filter such as the filter disclosed by Tanahashi et al.

***Allowable Subject Matter***

Claims 11,14,21,24,27,29,31, and 35 are allowed.
